

1891 meets 1892

2022 was challenging. However, it was also a year of unexpectedly positive surprises for the Thies Group. Thus, there were opportunities to expand our company premises in Coesfeld, which we took up with a lot of confidence and the firm belief in the long-term orientation of our family company at the Coesfeld site.

On February 1, 2023, the land and buildings of the adjacent water mill at Neumühle became the property of Thies GmbH & Co. KG. We would like to thank the Thering family for their trust in selling us the properties of their family business, which was founded in 1891.

Our sincere thanks also go to all employees involved, who have already put in a lot of effort and complex thoughts to design an optimal connection. We would also like to thank our numerous external partners who are closely supporting us with advice and action in the realization, the planning and from now on also in the implementation of this meaningful expansion project.

Sincerely,

Alexander Thies, Christiane Thies and Verena Thies-Niehoff
